Spring 2017-18 Workshops

Session #: **105385**

Session name: **TWU Speech Pathology Master's Program Information Meeting**

Description: This information meeting is specifically for individuals interested in pursuing their master's degree in speech language pathology. Individuals will learn general information about the program as well as the detailed information and the specific criteria required for the application process. The program's purpose is to decrease the shortages of SLPs in the public schools, therefore, participants attending this informational meeting must understand that this particular program's focus is to ameliorate the shortages of SLPs in the schools. Additionally, attendees interested in seeking a bilingual certificate in addition to their master's degree will have an opportunity to learn more about the bilingual certificate requirements. Pursuing a master's degree in speech pathology requires individuals who do not already have a bachelor's degree in the field to take "leveling" course work. This information will also be discussed in detail.

Special instructions: All applicants **MUST** attend one of these meetings: May 10, 2018, May 30, 2018, June 18, 2018, or a webinar on July 16, 2018

Participants interested in applying to the SLP Master's Degree Program - Statewide Distance Venue - Cycle 10, **MUST** attend one full information meeting. Cycle 10 begins in 2019 and runs through 2021.

This prep study session takes a look at the advanced training course that moves beyond fundamentals and provides cutting-edge strategies for integrating Google in the classroom. Spend two days completing the Advanced Training Course self-paced and with group support looking at less common tools and instructional strategies, do the unit reviews, and if you are comfortable, take the exam for an additional \$25 fee.

Special instructions: Bring earbuds or headphones. If you plan to take the test with the group, bring a credit card for the \$25 exam fee with Google. You will be using a laptop with webcam... You may bring your own laptop if you desire.

Spring 2017-18 Workshops

Session #: **105386**

Session name: **TWU Speech Pathology Master's Program Information Meeting**

Description: This information meeting is specifically for individuals interested in pursuing their master's degree in speech language pathology. Individuals will learn general information about the program as well as the detailed information and the specific criteria required for the application process. The program's purpose is to decrease the shortages of SLPs in the public schools, therefore, participants attending this informational meeting must understand that this particular program's focus is to ameliorate the shortages of SLPs in the schools. Additionally, attendees interested in seeking a bilingual certificate in addition to their master's degree will have an opportunity to learn more about the bilingual certificate requirements.

Pursuing a master's degree in speech pathology requires individuals who do not already have a bachelor's degree in the field to take "leveling" course work. This information will also be discussed in detail.

Special instructions: All applicants **MUST** attend one of these meetings: May 10, 2018, May 30, 2018, June 18, 2018, or a webinar on July 16, 2018 *****Please note the time for this is actually 4:45-7:45pm*****

Participants interested in applying to the SLP Master's Degree Program - Statewide Distance Venue - Cycle 10, **MUST** attend one full information meeting. Cycle 10 begins in 2019 and runs through 2021.

Session #: **105598**

Session name: **Literacy Investigations, preK-12 Reading, Math, Behavior, ELL**

Description: No time to attend an on-site PD? Prefer learning online? Try ED View 360 and share your ideas in our online community. ED View 360 provides free webinars with the best in research-based PD spearheaded by Dr. Louisa Moats, a national reading and dyslexia expert. Watch any three, any three webinars, and write a statement about what you learned and how you will implement this new or deepened knowledge next year. Share this in our google classroom environment by August 3rd. Then, as you begin teaching, implement your ideas and record your progress in our classroom to earn additional PD hours. Why not view the blog and see if you find something you like? <http://www.voyagersopris.com/blog>

You can also find excellent videos on Edweb <https://home.edweb.net/upcoming-webinars/> You may also use webinars from this site.

Then, register and I will send you an invitation to the Google Classroom. More explicit directions will be in the classroom!

Session #: **105134**

Session name: **Counselor Consortium Meeting**

Description: AM Session: The last Consortium meeting of the year will focus on a topic of growing public concern. Human trafficking, believed to be the third-largest criminal activity in the world, includes forced labor, domestic servitude, and commercial sex trafficking. It involves both U.S. citizens and foreigners alike, and has no demographic restrictions.

The presentation will include the definition of trafficking, explanations of different types of trafficking, risk factors, red flags, and what you can do to protect your self, your children, and your students. News stories about local trafficking issues will also be included in the day's discussions.

PM Session: Professional School Counselor Academy

Mini training on online test prep materials that are being provided through a partnership with Workforce Solutions and Region 14. Time will also be provided to address scheduling issues, transcripts, etc.

Session #: **105330**

Session name: **Integrating Art into Your Core Curriculum**

Description: This year the Children's Art & Literacy Festival (CALF) is showcasing the work of author and illustrator, Oliver Jeffers. Come join us for a fun three-hour workshop, sponsored by Young Audiences of Abilene and Region 14, using Jeffers' books to integrate core subjects and art. Arts integration curriculum design gives all students the opportunity to express their creativity and to learn critical-thinking, problem-solving, and innovation skills. This workshop investigates these statements through metaphor, hands-on activities, and discussion. Participants will develop lessons combining one art form and one other curricular area to uncover how best practice in arts integration affects teaching and learning. The workshop will focus on three Oliver Jeffers' books: *Stuck*, *This Moose Belongs to Me*, and *Here We Are*.

The workshop will take place at Community Foundation of Abilene, 850 North 1st Street. Registration inquiries can be directed to Diane Hunt at 325-675-1161.

Special instructions: Participants will be required to register at two locations for this workshop. First, please register for free here on Pitstop. Second, please click the following link to register with Young Audiences. There will be a \$10 fee when you register at the link.

Session #: **105140**

Session name: **In-Depth Differentiation**

Description: National speaker and author, Laurie Westphal, will show how Differentiation is more than just strategies. It is a way of thinking; a method of approaching each lesson that teachers teach – every day.

During this session participants will experience different ways to differentiate for advanced students. Come ready to discuss and plan different ways to differentiate for students – focusing on opportunities to differentiate content and process. Participants should bring their curriculum guides, scope and sequences, or other resource materials that can be used to apply the ideas discussed during this session.

Optional: Participants may also want to register for the previous day's workshop with Ms. Westphal, "Differentiation for Beginners."

Session name: **Advancing Educational Leadership (AEL)**

Description: Advancing Educational Leadership (AEL) is organized to facilitate participants' recognition of the connections and relationships between and among the major functions of school leadership. AEL features five conceptual themes: creating a positive school culture; establishing and sustaining vision, mission, and goals; developing self and others; improving instruction; and managing data and processes.

The seven strands of AEL align to the principal standards established by TEA. As compared to the five conceptual themes of AEL, the seven strands of AEL are skills that successful school leaders must know and be able to do. These seven strands include team building; effective conferencing; conflict resolution; goal setting; data gathering and analysis; teacher coaching and mentoring; and curriculum.

Special instructions: AEL has replaced the Instructional Leadership Development (ILD) training that was used with the previous appraisal system. AEL is a co-requisite for all participants planning to take the Texas Teacher Evaluation and Support System (T-TESS) training to become a certified T-TESS appraiser.

AEL is a co-requisite (must be completed prior to conducting T-TESS observations) for T-TESS appraiser training.

Session #: **104830**

Session name: **Texas Teacher Evaluation and Support System (T-TESS)**

Description: The Texas Teacher Evaluation and Support System (T-TESS) is the state-recommended appraisal system designed to support teachers in their professional development and help them to grow and improve as educators. This three-day T-TESS training is a prerequisite for the online T-TESS certification test required for all teacher appraisers. Appraisers must also possess an ILD (Instructional Leadership Development) OR an AEL (Advancing Educational Leadership) certificate as a co-requisite to T-TESS certification.

Participants will become familiar with the T-TESS process to continue improving professional practices of teachers. Participants will move from the procedural to conceptual understanding of how the domains, dimensions, descriptors, and performance levels of the T-TESS rubric apply to the appraisers' roles and responsibilities.

Participants must attend the entire three-day training to receive authorization to take the T-TESS online certification test.

Special instructions: Co-requisite: AEL or ILD
The \$450.00 fee includes the \$75.00 certificate fee.

Session #: **105489**

Session name: **Interactive Strategies for ELs**

Description: English learners (ELs) face a double challenge daily making it difficult to learn at the same rate as their English speaking peers. The Powerful Strategies for ELs professional learning has been one of the most popular trainings because it addresses this concern! It provides you with the tools and techniques that engage students, therefore, lowering their anxiety and allowing learning to happen.

In this professional learning, you will:

- practice interactive strategies that can be used across content areas,
- learn how to use the language proficiency level to differentiate the strategies,
- learn strategies that will scaffold students' learning to higher levels of thinking, and
- understand how to move students from listening and speaking to reading and writing.

LETRS is a nationally recognized professional development series developed by Dr. Louisa Moats. In our final module of the series, we will examine the many conditions, skills, processes, and abilities that influence reading comprehension outcomes. The goal is to help educators anticipate the challenges students face as they prepare to read any given text, and to enable students to make inferences about underlying meanings. This module concludes with an overview of teaching strategies that are supported by research, including a questioning process!

Session name: **Fine Arts Educators BYOPD - Build Your Own Professional Development (EdCamp style)**

Description: Please join us for an educational, organic, participant-driven day about all things Fine Arts! Created by educators..for Fine Arts educators! BYOPD is an "un-conference" (similar to the EdCamp model) that's all about sharing our strengths as educators. Fine Arts educators can connect with other like-minded individuals, collaborate on ideas, brainstorm solutions, have group discussions, and receive information that can be applied in your classroom.

Attendees are encouraged to participate by sharing a question or idea and/or leading a conversation. All sessions are determined by participants on the day of the event. Everyone is welcome to propose and lead a session where conversation and collaboration are paramount. You are certain to take away a host of great ideas, new resources and add new colleagues to your personal learning network.

Special instructions: What do I bring? Bring an excitement for learning! Like any conference, come prepared to take notes in the fashion you like. Bring a device or a Big Chief tablet, you're choice! FYI - digital files will be gathered in a shared folder. Bring your ideas, questions and anything you would like to make your day meaningful.

Session name: **Effective Decoding and Spelling Instruction for Students with Disabilities**

Description: This is a two-day streamed video workshop, with Virginia Gonzalez and will assist teachers with all struggling learners in all settings/grades. Virginia is a diagnostician for dyslexia services and has also served as the Texas State Dyslexia Consultant.

Day one will focus on the two significant factors in acquiring literacy: decoding and spelling. A framework for a decoding-spelling continuum will be presented. Instructional strategies and activities will also be presented that will reinforce concepts and skills for students performing below grade level.

Day two will further build on participants' understanding of how English spelling works. This session will explain the five principles for understanding English orthography when spelling. Understanding these five principles will provide students with a structure and plan for decoding and spelling unknown words.

Session #: **105389**

Session name: **Webinar: TWU Speech Pathology Master's Program Information Meeting**

Description: This information meeting is specifically for individuals interested in pursuing their master's degree in speech language pathology. Individuals will learn general information about the program as well as the detailed information and the specific criteria required for the application process. The program's purpose is to decrease the shortages of SLPs in the public schools, therefore, participants attending this informational meeting must understand that this particular program's focus is to ameliorate the shortages of SLPs in the schools. Additionally, attendees interested in seeking a bilingual certificate in addition to their master's degree will have an opportunity to learn more about the bilingual certificate requirements.

Pursuing a master's degree in speech pathology requires individuals who do not already have a bachelor's degree in the field to take "leveling" course work. This information will also be discussed in detail.

Special instructions: All applicants **MUST** attend one of these meetings: May 10, 2018, May 30, 2018, June 18, 2018, or a webinar on July 16, 2018.

Participants interested in applying to the SLP Master's Degree Program - Statewide Distance Venue - Cycle 10, **MUST** attend one full information meeting. Cycle 10 begins in 2019 and runs through 2021.

Session name: **Progress Monitoring Using Curriculum Based Measurement**

Description: Curriculum Based Measurement (CBM) is a quick and inexpensive way to monitor progress in reading, math, and writing skills. CBM is a form of classroom assessment that teachers can use to evaluate not only their students' progress but also the effectiveness of their current instructional methods. CBM can also be used in the development of annual goals for students with disabilities, as well as measuring progress on those goals.

Session #: **104790**

Session name: **Deepening Practice: CRIT from UT! Explain how a text means. Part I**

Description: How does UT get STEM students to analyze literature? With what the students call, the "scientific method for analyzing literature." Critical Reading Interpretive Tool, or CRIT is an open-source tool used by all students in UT during their freshman Humanities course, which is mandatory, by the way, for all students. Learn the method and see the application to STAAR. STAAR is all about author's craft or explaining how a text means. This method will help us connect students for success in college writing. It can also be adapted by science and social studies teachers. Part II, writing in science, applying CRIT to science, will be October 3rd.

Session #: **105393**

Session name: **Have you ever "felt" like Felting, but don't know where to start?**

Description: Marsha Morgan, a certified All-Level Art teacher, discovered “felting” at a Texas Art Education Association (TAEA) Conference and fell in love with the artisanal skill that forms textiles that pre-date weaving and spinning. The sensory feedback is rewarding and the flexibility as a method of rendering one-of-a-kind art and functional pieces is experiencing a rebirth in the art of fabrication. Marsha used and taught this art form to advanced students who had success in their portfolio work and in competition.

Workshop participants will “felt” a brooch using an option chosen from insect diagrams as a motif. The felted creature, with embellishments, should be finished and wearable at the end of the workshop.

Each attendee will be given a handout with educational information that will allow suitable lesson plans to be completed, expanded and used in the classroom.

Session #: **105244**

Session name: **Kagan--Brain-Friendly Teaching (2-days)**

Description: Brain science and research has direct applications to classroom teaching and learning. We ignore the research at the peril of our own success as well as at the success of our students. Teaching with methods that don't respect brain science is like swimming against the current: teaching is more exhausting, students learn less, and students like class and content less. When we align our teaching with how the brain best learns, we are going with the current. Students learn more, enjoy class more, and teaching is more effortless and enjoyable for us. In this workshop, learn six core principles of brain-friendly teaching. For each principle, you will come away with Kagan Structures, tools, tips, and techniques to make your teaching more brain compatible and more scientifically sound.

Session #: **105311**

Session name: **Thinking Mathematically with ratio tables**

Description: This training provides teachers with the theoretical basis, practical knowledge, and expertise to effectively use the ratio table as a powerful model for mathematical learning in 6-8 education. A growing number of researchers in mathematics education are pointing to the ratio table as a fundamentally important mathematical model for elementary and middle school learners as we prepare them for success in the beginning algebra course. One of the reasons for this assertion is the degree to which the ratio table is a visual representation – a structural model – that embodies numerous mathematical concepts and relationships. The ratio table promotes proportional reasoning, makes use of equivalent fractions, can be a model for percents, functions as a double number line, and also can be an elegant computational tool in contexts that require either multiplication or division.

Come experience and experiment the ready-made writing lessons in which you will leave with your own samples to immediately use in your classroom! You will also be introduced to a new routine for your students to master mentor sentences that will take the place of learning grammar skills in isolation and is proven to demonstrate growth at the sentence level. Don't miss this opportunity to network with others across our region!

Session #: **105197**

Session name: **Trust Based Relational Intervention- Strategies for students who have experienced trauma**

Description: TBRI® is an attachment-based, trauma-informed intervention that is designed to meet the complex needs of vulnerable children. TBRI® uses Empowering Principles to address physical needs, Connecting Principles for attachment needs, and Correcting Principles to disarm fear-based behaviors. While the intervention is based on years of attachment, sensory processing, and neuroscience research, the heartbeat of TBRI® is connection.

TBRI® is designed for children from “hard places” such as abuse, neglect, and/or trauma. Because of their histories, it is often difficult for these children to trust the loving adults in their lives, which often results in perplexing behaviors. TBRI® offers practical tools for teachers, or anyone who works with children, to see the “whole child” in their care and help that child reach his highest potential.

Summer 2017-18 Workshops

Session #: **105606**

Session name: **Face to Face LPAC/Title III Updates**

Description: Language Proficiency Assessment Committee (LPAC) provides clarification of legal requirements integrating State and Federal Laws to (TAC) Chapter 89 of the Commissioner's Rules Concerning the Education of Limited English Proficiency Students.

This (TOT) training is designed for experienced staff who have been trained previously on LPAC procedures. New information that affects the LPAC process and a review of basic procedures will be covered. The purpose of this session is to equip district/school personnel and build capacity for the purpose of establishing the mandated process to meet the needs of English Language Learners. Entry and exit procedures, placement, and assessment decisions will be reviewed in detail. This training mirrors the LPAC training released by the Texas Education Agency's Bilingual/ESL Department.

Summer 2017-18 Workshops

Session #: **105204**

Session name: **ONLINE - Writing Rubric Training (3rd - HS)**

Description: Many English teachers have a tendency to read student essays with a fine-tooth comb, but when it comes to reading and rating STAAR essays holistically, that is not the case. What if there was a way to use the STAAR rubric in a more analytic approach rather than a holistic approach that would provide teachers specific feedback on students' writing pieces? The more detailed feedback would allow teachers to better individualize instruction to meet the writing needs of students. It would provide students the ability to focus on the domain-specific areas in which they are striving to perform well, while also celebrating areas of strengths and growth.

Participants will be using the online SeeSaw Learning platform as a way to provide student feedback as well as students providing peer feedback using their own writing pieces.

Special instructions: You do not have to be a SeeSaw expert to participate. You may work through the activities at your own pace in your own space on your own time using any device. You must complete the activities by 11:30 to receive 3 hours of CPE credit. Registered participants will be sent an invitation to begin the SeeSaw activities and detailed instructions the evening before the session.
