Session #: **106153**

Session name: **Resources for SLOs, Smart Goals/ELA Instruction: Texas Gateway Online Resources, K-12**

Description: Did you know our state's Texas Gateway has multiple resources, such as courses, and lessons that you can do with your students or assign students? They have multiple resources for all grades. First step: considering your goals and SLO, find what you need on the gateway. Go through at least three lessons and/or resources, explain what you learned and how you will utilize it. Then, implement your new instruction and let me know in two pages or a powerpoint, or whatever else you prefer, what you did and how it went. I have just read a number of lessons on how setting relates to plot. I am currently reviewing how to teach a summary. 4th grade has great links for grammar videos and tools. You really need to check this FREE resource from TEA out and get hours for your work. Since this is self-paced, you can earn 3 to 6 hours. When you register, email me and I will invite you into the Google Classroom. You can take the course again next semester. There is so much to learn!

Special instructions: You will be invited to a Google Classroom so you can upload your work. Email dscherr@esc14.net that you have registered and get started!!!

Fall 2018-19 Workshops

Session #: **105903**

Session name: **Generating & Writing Data-based & Student-Centered Recommendations**

Description: This webinar will focus on providing evaluators with guidance on writing tailored recommendations in a report. Additionally, the fundamental distinction between generating recommendations and tailoring recommendations will be highlighted. The intended result is to inform the recommendations offered with the available data and make them more student-centered. In doing so, the connection between the FIE and the classroom can be strengthened. To this end, this webinar will offer an overview of several instructional, curricular, environmental, and compensatory recommendations along with resources for implementation.

Special instructions: A few days before the webinar, you will receive an email with further instructions on accessing the link to the webinar.

Session #: **106152**

Session name: **Advancing Educational Leadership (AEL) October 15, 16, and 18**

Description: Advancing Educational Leadership (AEL) is organized to facilitate participants' recognition of the connections and relationships between and among the major functions of school leadership. AEL features five conceptual themes: creating a positive school culture; establishing and sustaining vision, mission, and goals; developing self and others; improving instruction; and managing data and processes.

The seven strands of AEL align to the principal standards established by TEA. As compared to the five conceptual themes of AEL, the seven strands of AEL are skills that successful school leaders must know and be able to do. These seven strands include team building; effective conferencing; conflict resolution; goal setting; data gathering and analysis; teacher coaching and mentoring; and curriculum.

Special instructions: AEL has replaced the Instructional Leadership Development (ILD) training that was used with the previous appraisal system. AEL is a co-requisite for all participants planning to take the Texas Teacher Evaluation and Support System (T-TESS) training to become a certified T-TESS appraiser.

AEL is a co-requisite (must be completed prior to conducting T-TESS observations) for T-TESS appraiser training.

Session name: **Restorative Circles Day 1 - Community Building Circles**

Description: Restorative Practices can make a difference for all students in the realms of behavior and academics. In this session participants will learn how to facilitate student conferences and circles to build community in their classrooms. Restorative Practices have shown to yield increased respect, better behavior and ultimately better academic outcomes in the classroom. Participants will leave this session renewed and excited about the upcoming school year. Resources will be provided to enable practical application of Restorative Practices in the classroom.

Special instructions: Please bring a laptop or tablet to access digital resources in the afternoon for building lesson plans that will be shared with all participants at day's end.

Session #: **105896**

Session name: **TEACCH: Ready, Set, Structure**

Description: Come learn strategies that can be used in all classrooms and integrated into other evidence-based practices including:

1. External organizational supports to address challenges with attention and executive function
2. Visual and/or written information to supplement verbal communication
3. Structured support for social communication

TEACCH developed the intervention approach called "Structured TEACCHing," an array of teaching or treatment principles and strategies based on the learning characteristics of individuals with Autism. The goal of Structured TEACCHing is to promote meaningful engagement in activities, flexibility, independence, and self-efficacy in ALL classrooms on your campus with ALL students.

Fall 2018-19 Workshops

Session #: **105935**

Session name: **Navigating the New Social Studies Tools in the TEKS Resource System**

Description: The TEKS Resource System's social studies team has been hard at work to update the core documents like the Instructional Focus Documents, Year-at-a-Glance, and assessment items. But in addition to those, there are new resources like Social Studies STAAR Analysis by Unit, Backward Design Documents, Thinking Like a Historian Units, new Performance Tasks, literacy skills spiral assessment items, instructional documents for using primary sources, teaching with the end in mind, and so much more. Come maximize your understanding and use of these valuable resources. Bring your school calendar and instructional calendar as well as a digital device to this training.

Special instructions: This session is a blended instructional format. Four and a half hours will be on-site at the service center and 2 hours will be off-site through Google Classroom.

Session #: **105818**

Session name: **Restorative Circles Day 2 - Problem-Solving Circles**

Description: Restorative Practices can make a difference for all students in the realms of behavior and academics. In this session participants will learn how to facilitate student conferences and circles to solve problems and repair harm with their students. Restorative Practices have shown to yield increased respect, better behavior and ultimately better academic outcomes in the classroom. Participants will leave this session renewed and excited about the upcoming school year. Resources will be provided to enable practical application of Restorative Practices in the classroom.

Special instructions: Please bring a laptop or tablet to access digital resources in the afternoon for building lesson plans that will be shared with all participants at day's end.

Session name: **ONLINE Day 4 of 30 Hour GT Training - Creative/Critical Thinking**

Description: This is the fourth of five pieces of training that comprise the 30 hours of G/T training required of teachers that are responsible for providing services to gifted learners. Although not every district specifically provides services for the creatively gifted, it is important to understand that creative and critical thinking patterns become a unique characteristic of gifted learners. Participants will also look at advanced level projects and how the Texas Performance Standards Projects can be used to develop advanced projects.

This is a self-paced seven-day course that must be started by the fourth day of class and completed by the seventh. Instructions on getting started will be sent from the course facilitator, Phyllis Baum.

Special instructions: If it has been more than five years since you have taken the 30-hour training, then you may count this as a six-hour update.

Session name: **New ELAR TEKS Training 6-12/STAAR Author's Craft 6-12: Leave Early, Work Ahead**

Description: This fall we will have many work ahead/ leave early trainings. This is the second! The new TEKS for K-8 will go into effect next fall, 2019-2020. 9-12 will go into effect 2020-2021, however, it is not too early to begin shifting your brain and teaching differently. The new TEKS will help you prepare for STAAR in HS. Your new textbooks for K-8 are arriving. Our text book adoption day for K-8 will be January 22. Be prepared. Come look at the new TEKS in the morning. Since we leave at 2:30, you will have the chance to earn your extra hour and a half by reading through the new TEKS for your grade level and coming ready to independently write and talk about them. You can also gain the hour and a half later in the Google Classroom. If you are HS, don't worry. I will offer more trainings next year just for you. However, I do not think, it is too early to begin to process how things can be different.

Special instructions: As always, bring any digital device that supports your learning. Since this workshop is only 4.5 hours, you have an option to earn the extra hour and a half before the training by reading through the new TEKS for your grade level and being prepared to write about your insights. The link to the new TEKS is https://tea.texas.gov/Academics/English_TEKS_Review/ Make sure you download the Vertical Alignment Document. Do not read anything that still says draft.

Fall 2018-19 Workshops

Session #: **106029**

Session name: **32nd Gathering of Professionals "Vocabulary: The Secret in Academic Achievement"**

Description: Amy Benjamin is a nationally recognized consultant, teacher, and author specializing in improving student performance through literacy in all subject areas. A few titles authored by Amy Benjamin include: "Grammar Alive! A Guide for Teachers" as well as "But I'm Not a Reading Teacher: Strategies for Literacy Instruction in the Content Areas."

Understanding and being able to use academic vocabulary is crucial to student success in school. How do words get learned and stay learned? What words should be "caught, not taught" through implicit instruction? What are the best research-based approaches that teachers can use to teach technical terms? Amy Benjamin will share her "4Es" of explicit and implicit vocabulary instruction: exposure, exploration, engagement, and energy. She will demonstrate the use of word stories, visuals, meaningful repetition, morphology, and interesting word-learning activities that make word-learning accessible and memorable for all students.

Special instructions: Preregistration is required. Registration is \$25. Lunch is included. No telephone registrations accepted. Special education personnel should check with their Special Education Directors before submitting individual fees. No refunds. Deadline is November 27, 2018.
