

*Region 14 Education Service Center
2016-17 Workshops*

May 2017 through August 2017

Region 14 offers a variety of workshops for school district employees, educators, administrators and other support personnel. The subjects covered include state education programs, instructional strategies for the classroom, and training geared for specific job positions.

Region 14 PITStop

May 26, 2017

6:19 am

Spring 2016-17 Workshops

Session #: **103914**

Session name: **Comprehensive Needs Assessment and Campus Planning (Make-up Session)**

Description: This session will provide the most current information regarding requirements for Title I campuses in the areas of comprehensive needs assessment and campus improvement plans. Updates related to Every Student Succeeds Act (ESSA) and these two areas will also be addressed in this workshop.

This session is a make-up session for those who missed the original session on April 11th. The session information and activities will be the same as the original session.

Special instructions:

Presenter(s): Jo Ann Gonzales, Janet Lawler & Emilia Moreno

ESC contact: Emilia Moreno

ESC contact e-mail: emoreno@esc14.net

Location: Off Site

Room(s): DeLeon

Date(s): May 1, 2017

Time: 9:30 AM to 12:30 PM

Registration deadline: May 1, 2017 12:30 PM

6:19 am

Spring 2016-17 Workshops

Session #: **103322**

Session name: **Mentor Texts for ELA Teachers (Repeat from April 12th)**

Description: A mentor text is a published piece of writing a teacher uses during a writing lesson to either incorporate as their teaching point or to encourage students to write like the experts. This session is based from the book by Lynne Dorfman and Rose Cappelli along with how Corbett Harrison categorizes his mentor texts. You will be given the knowledge and tools you need to set the groundwork using children's literature and other authentic texts in order to help your students become confident and accomplished writers. Come join me during this one-hour, online session as I acquaint you with what mentor texts consist of, how to choose them, and how they fit into your curriculum.

Special instructions: This is a one-hour, online presentation using Google Classroom. You may work through the session at your own pace even though PitStop states it's open from 9 AM-4 PM. You may complete the session within 24 hours whether it's before or after school, during your planning time or at home in the evening. When you register, I will send you an invitation to begin Google Classroom and detailed instructions the evening before the session.

Spring 2016-17 Workshops

Session #: **103493**

Session name: **Elementary DBQs-LRE Style! (Even Elementary Students Can Write a DBQ) Grades: 3-5**

Description: Looking for a way to integrate ELAR and social studies? Looking for an engaging way for students to analyze and synthesize primary sources? Then Document-Based Questions or DBQs are for you! DBQs foster analytical, critical thinking, and writing skills. In this session participants will have an opportunity to explore the DBQ process in a fun and engaging way. Participants will leave with active learning strategies and DBQ lessons, aligned to the TEKS presented by Texas Law Related Education

Special instructions: Lunch will be provided.

Presenter(s): Lisa Wellborn, Texas Law Related Education

Summer 2016-17 Workshops

Session #: **103997**

Session name: **Comprehensive Needs Assessment Work Day**

Description: This session will provide an opportunity for schools to work on analyzing data, developing problem statements, identifying needs, and establishing SMART (Specific, Measurable, Attainable, Results-Based, Time-Bound) goals for 2017-18. The Every Student Succeeds Act (ESSA) 2017-18 Application requires that districts provide Performance Measures/SMART Goals. Plan to bring a team to this work session in order to get the greatest benefit from the day. Team members could include: site-based decision-making team members, superintendent, principals, teachers, paraprofessionals, business managers, PEIMS personnel, counselors, and other faculty/staff as each school deems appropriate. Schools should bring data that is as current as possible that can be used to determine the greatest needs of the district/campuses.

Special instructions: Possible data sources include, but are not limited to: benchmark data, surveys (parents, teachers/staff, students, community members), attendance rates (students and/or teachers), STAAR, unit assessments, on-line software programs used by district, Think Through Learning - Math, Imagine Learning - Reading, TPRI, iStation, T-TESS, TELPAS results, dropout rates, technology used, Individual Program Evaluations - Federal, State, Local, System Safeguards, Performance Based Monitoring information.

Summer 2016-17 Workshops

Session #: **103811**

Session name: **Online Nature and Needs of Gifted - Day 1 of 30 Hour Gifted/Talented Training**

Description: In this self paced e-course, participants will learn about the cognitive, social, and emotional characteristics of gifted students. Participants will contribute ideas to the discussion board, share their own experiences, and research related information. The objectives will be met through Internet investigations, investigation of district information and practices, and threaded discussions. A 10-question end-of-course knowledge test is also included.

Special instructions: Participants will receive instructions by email from the course facilitator on how to begin This course runs June 1-15. Coursework must be started at least four days prior to the close date. Please email Nancy Galle when you register for this course after June 1 at ngalle@esc14.net.

Please remember this course is for six hours of credit, therefore, participants should expect to spend approximately six hours of time to complete the course.

Presenter(s): Phyllis Baum, Course Facilitator

Summer 2016-17 Workshops

Session #: **103885**

Session name: **Teaching Geography Concepts & Skills in Secondary Social Studies**

Description: What is geography? What are the major concepts in geographic education? Ever taught about immigration, population, or urbanization? What does "doing geography" look like in the classroom? These questions are basis of exploring major (and minor) geographic concepts, perspectives, and skills required by the TEKS for the social science courses. Come learn engaging, hands-on strategies for deeper, more meaningful understanding and implementation of geography instruction in your secondary classroom.

Special instructions:

Presenter(s): Mary Lynn Johnson, Texas Alliance for Geographic Education (TAGE)

6:19 am

Summer 2016-17 Workshops

Session #: **103996**

Session name: **The movie "Gifted" is spot on!**

Description: The recently released movie "Gifted" is an outstanding fictional story of what it means to be a gifted learner.

"It is a must-see for anyone who cares about gifted kids, doesn't really understand giftedness, is parenting a gifted child, is educating a gifted child, was a gifted child...is that everyone?" -
giftedguru.com

This online class will be taught using Google Classroom. Participants will be required to see the movie on their own time and then complete differentiated assignments about the movie and gifted education. All participants registered before June 1 will receive a link to the Google Classroom on June 1. Anyone registering after that date will need to email Nancy Galle at ngalle@esc14.net for the link. This is a self-paced class that must be completed by June 10.

Summer 2016-17 Workshops

Session #: **103636**

Session name: **ONLINE: Expository Essay Exposed for Upper Elementary (4 Part Series)**

Description: In this six-hour, pre-recorded ONLINE session using Google Classroom as the platform, you will experience how to guide your students to analyze a STAAR writing prompt to generate a specific topic, how to write a stellar introduction, how to build a strong body paragraph, and how to create a satisfying conclusion. We will take a deeper look at the academic language needed for explicit instruction using TEA's writing rubric and the various stages of the writing process. In addition, we will look at some other tools and resources to incorporate in order to prepare your students to write their engaging essay. Be prepared to write an example essay as a model for your new students in the fall using what you learned in this series.

Part 1 – Selecting a Topic

Part 2 – Hook and Thesis

Part 3 - Strong Body Paragraphs

Part 4 – Conclusion

This session is a repeat from spring 2017 with some minor revisions.

Special instructions: You do not have to be a Google Classroom expert to participate. You may work through all four Google Classroom sessions at your own pace in your own space on your own time using any device even though PitStop states the session is open from 8:30 AM - 3:30 PM. You must complete the series by 4:00 on June 8th to receive six hours of CPE credit. Registered participants will be sent an invitation to begin each Google Classroom session (4) and detailed instructions the evening before the session.

Summer 2016-17 Workshops

Session #: **103622**

Session name: **ONLINE: Managing Emotional Mayhem Book Study**

Description: "Self-Regulation is the ability to manage emotional upset and behavior. The way adults handle emotional upset when children [and adolescents] are throwing fits, backtalking, name-calling, being defiant and withdrawing will either foster or inhibit their ability to develop self-regulation." Dr. Becky Bailey, Ph.D.

Special instructions: We have found the cheapest vendor for the book is at the Conscious Discipline website. Click here: <https://goo.gl/4m6gfP> to be directed to the book directly.

Registration for the study will close June 4. Instructions for accessing the study will be sent to all registered participants on June 5. Study will run June 5 through June 30.

Grade(s): EE, PK, KG

Audience(s): Early Childhood, Elementary Teachers, Paraprofessionals, Any Interested Audience, Teachers, Administrators, Parents

Objective(s):

Summer 2016-17 Workshops

Session #: **103750**

Session name: **ONLINE: Persuasive/Expository Essay Exposed for Secondary (4 Part Series)**

Description: In this six-hour, pre-recorded ONLINE session using Google Classroom as the platform, you will experience how to guide your students to analyze a STAAR writing prompt to generate a specific topic, how to write a stellar introduction, how to build a strong body paragraph, and how to create a satisfying conclusion. We will take a deeper look at the academic language needed for explicit instruction using TEA's writing rubric and the various stages of the writing process. In addition, we will look at some other tools and resources to incorporate in order to prepare your students to write their engaging essay. Be prepared to write an example essay as a model for your new students in the fall using what you learned in this series.

Part 1 – Selecting a Topic

Part 2– Hook and Thesis

Part 3 - Strong Body Paragraphs

Part 4 – Conclusion

This session is a repeat from spring 2017 with some minor revisions.

Special instructions: You do not have to be a Google Classroom expert to participate. You may work through all four Google Classroom sessions at your own pace in your own space on your own time using any device even though PitStop states it's open from 8:30 AM - 3:30 PM. You must complete the series by 4:00 on June 8th to receive six hours of CPE credit. Registered participants will be sent an invitation to begin each Google Classroom session (4) and detailed instructions the evening before the session.

Presenter(s): Angie Kenley

Audience(s): Any Interested Audience, Teachers, Secondary Teachers, Paraprofessionals

Objective(s): 1.1, 1.3, 1.4, 2.1, 2.2, 2.3, 2.4, 2.5, 3.1, 3.3

Summer 2016-17 Workshops

Session #: **103754**

Session name: **Region 14 Book Study: Everyday Editing**

Description: "Editing can be more than a mere stage at the end of the writing process. We know correcting is not teaching, but what can editing instruction look like in a process-based classroom? Where do concept formation and mentor texts fit in? Dynamic ways to integrate an expanded definition of editing into a writing process classroom—every day—will be explored." - Jeff Anderson

This self-paced book study, conducted through Google Blogger, will address how meaningful the editing stage of the writing process truly is when it comes to improving student writing. This book is chock-full of lessons that can replace daily oral language items or "error-based editing strategies" along with how to utilize mentor texts, the writer's workshop, and students' own writing as a basis for driving your instruction even further.

Join me as I guide you through Jeff Anderson's book using Google Blogger.

Special instructions: You do not have to be an expert blogger to participate in this book study. I will guide you to set up your blog and then you may begin reading your book at your own pace. You can purchase the book at various websites. Amazon is one place you can start to check for pricing. The Book Study will begin Monday, June 5th through Friday, June 30th. Your facilitator, Angie Kenley, will email each participant step-by-step instructions June 4th.

Session #: **103762**

Session name: **Texas Dyslexia Identification Academy Module Day One: Foundations of Dyslexia**

Description: The Texas Education Agency has authorized a 5-Module Texas Dyslexia Identification Academy for State-Wide Transformation. Module 1, Foundations of Dyslexia will assist school districts and charter schools in the identification of students with dyslexia. The objectives for Module 1 are to define dyslexia and related disorders, explore the characteristics and common risk factors of dyslexia at varying age and grade levels, explore elements of reading, and review associated academic difficulties and conditions that may co-exist with dyslexia. This training is open to all teachers, administrators, evaluation personnel, and interventionists who want to understand dyslexia. All interventionists, diagnosticians, counselors, administrators, and 504 committee members who will be responsible for the identification of dyslexia on their campuses should attend. Please bring a copy of the Dyslexia Handbook, Revised 2014. You can also access it on the internet.

Special instructions: Bring any digital device that supports your learning. But, especially bring a copy of the Dyslexia Handbook, Revised 2014 that you can annotate.

Session #: **103768**

Session name: **What K-1 Reading Academies Revealed: How You Teach PA and Early Phonics Matters! Day One**

Description: If you were unable to attend a K-1 Reading Academy, this day is for you. Bring a phonological awareness and a phonics lesson; learn how to make the lesson more explicit, systematic and sequential, which is what research shows works best for all kids! In addition, bring data from your early reading assessments and explore differentiated lessons for your students based on their data. This is not a reading academy, but TEA has provided most of the tools I need to help you in the prior reading initiatives. If you want to stay current with what TEA is saying will help ALL OF YOUR Kids, please join me!!! I am really excited to share with you the tools necessary to build a reading brain. All general ed, special ed and bilingual PreK-2 teachers, paraprofessionals and interventionists are invited! Today is focused on early PA and Phonics Skills. Day Two will be June 9 and will focus on more advanced phonics and all spelling skills! If you can, please attend both if you are a K-2 teacher.

Special instructions: Please bring any digital device that supports your learning. If you can, bring a phonics lesson, so we can compare it to the one I will show you. If not, it's okay.

Session #: **103879**

Session name: **MOS Certification Workshop-Excel**

Description: The MOS-Excel workshop will offer the following tools for certifying teachers to certify students. Exam preparation Tips and Tricks; student-involved practice problems covering all exam objectives; practice exams utilizing GMetrix Practice Software; and a real exam will be administered the last hour of the workshop. This is a great opportunity for school districts to support their students toward earning certifications as they prepare to enter the workforce.

Summer 2016-17 Workshops

Session #: **103769**

Session name: **Building Better Spellers, K-5: What Reading Academies Revealed- Spelling & Phonics Matters! Day 2**

Description: This is an updated K-5 spelling workshop, focusing on advanced phonics and phoneme-grapheme mapping! It is also Day Two of What the Reading Academies Revealed: How we Teach Phonics and Spelling matters! Bring a spelling list and write a spelling lesson that is more explicit, systematic and sequential, which is what research shows works best for all kids! This is not a reading academy, but TEA has provided most of the tools I need to help you in the prior reading initiatives. If you want to stay current with what TEA is saying will help ALL OF YOUR Kids, please join me!!! Again, if you have attended Building Better Spellers before, but would like a refresher and would like to learn about the strategy endorsed by TEA in the Reading Academies, phoneme-grapheme mapping, please join me! Day One is June 7, focusing on the early Phonological Awareness and Phonics skills.

Special instructions: Please bring any digital device that supports your learning. And, bring a spelling list so you can plan a lesson over the course of the workshop!

Summer 2016-17 Workshops

Session #: **103641**

Session name: **Revving Up Revising and Editing for STAAR (Secondary)**

Description: Get ready to accelerate your students' thinking and skill sets! In this two-hour, online session, I will discuss the difference between revising and editing by looking deeper at the TEKS for your grade level. We will look at example released STAAR test questions as a guide to instruct your students using mentor texts. This could include children's literature, excerpts from novel sets, and authentic articles online. I will also demonstrate some writing support station activities you can use to incorporate in your writing instruction. These items will also enhance students' skills when practicing writing the expository or persuasive composition for STAAR. This session is a repeat from spring 2017.

Special instructions: You do not have to be a Google Classroom expert to participate. You may work through the session at your own pace in your own space on your own time using any device even though PitStop states it's open from 8:30 AM - 3:30 PM. You must complete the session within 24 hours. Registered participants will be sent an invitation to begin Google Classroom and detailed instructions the evening before the session.

Summer 2016-17 Workshops

Session #: **103601**

Session name: **Steve Peha Integrated Literacy: Accelerating Student Performance Through Reading-Writing**

Description: It's literacy's best-kept secret. Reading and writing are not two things; they are two halves of the same thing. Without writing there is no reading; without reading, writing is impossible. The relationship between reading and writing is more than a connection, it's the most powerful fact of literacy that we can take advantage of. What if you could cut your teaching by half and give your students two learning opportunities for every one you give them now? Less work for you, more learning for your kids.

In this hands-on interactive workshop, you'll discover strategies for improving student writing that can also be used to improve reading at the same time. Teaching literacy in this deeply integrated fashion is the most effective way for accelerating achievement—and a key approach in reducing teacher workload.

Special instructions: This session will be held at Room 213 - Beltway Park North Campus at 2850 TX-351, Abilene, TX (just north of Region 14 ESC).

Description: Bridging the gap between causes of specific learning disabilities and student success can often be the missing link in the classroom. This session is designed to help identify characteristics of processing deficits that some students receiving special education services may have. Participants will gain teaching strategies to help a student compensate for their processing deficit(s). In addition, learners will expand their understanding of specific accommodations and how they can help support students' specific processing needs.

Special instructions: Half Day Morning Session Repeats in the Afternoon

Presenter(s): Jamie Canales & Heidi Brewer

ESC contact: Trudy Little

ESC contact e-mail: tlittle@esc14.net

Location: Region 14

Room(s): ESC Main Campus

Date(s): June 16, 2017

Time: 8:30 AM to 11:30 AM

Registration deadline: June 16, 2017 11:30 AM

CPE Credit: 3.0

Subject(s): CSF: Improve Academic Performance, CSF: Learning Time, Paraprofessionals, Special Education

Grade(s): EE, PK, KG, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Audience(s): Any Interested Audience

Objective(s):

Summer 2016-17 Workshops

Session #: **103872**

Session name: **Summer Blast: Learning How I Learn**

Description: Bridging the gap between causes of specific learning disabilities and student success can often be the missing link in the classroom. This session is designed to help identify characteristics of processing deficits that some students receiving special education services may have. Participants will gain teaching strategies to help a student compensate for their processing deficit(s). In addition, learners will expand their understanding of specific accommodations and how they can help support students' specific processing needs.

Special instructions: Half Day Afternoon Session Repeated from Morning

Presenter(s): Jamie Canales & Heidi Brewer

Grade(s):

Audience(s): Other, Principal interns

Objective(s):

Session #: **103274**

Session name: **Classroom Management**

Description: Join this fantastic presenter, Dr. Dianne Myers for classroom management strategies

By the end of this training, you should be able to:

Identify basic principles of behavior and understand their application in classroom management.

Maximize structure in the classroom.

Establish expectations and encourage students to follow those expectations.

Decrease inappropriate behavior.

Take data to make decisions about behavior supports in the classroom.

Differentiate levels of behavioral support as needed.

Grade(s): EE, PK, KG, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Audience(s): Elementary Teachers, Secondary Teachers, Teachers, Principals

Objective(s): 3.1, 3.2, 3.3

Summer 2016-17 Workshops

Session #: **103429**

Session name: **Differentiation -Let's Make it Easy! Plus - Creating a Challenge Lab! (K-6)**

Description: Participants will develop a clear understanding of what differentiation is and is not, by providing information on what a differentiated classroom looks like, compacting, menus, questioning techniques, and a plethora of activities to take back to the classroom for quick implementation. Advanced level products geared to differentiate for student interests and learning styles will also be discussed.

Want to serve all students when they achieve academic mastery in the classroom, and benefit & encourage the whole school? The Challenge Lab program is your answer! It extends and adds value to learning for high achievers, G/T, and "unidentified G/T" students via in-depth independent study, TEKS-aligned enrichment activities, and advanced-level products. The Challenge lab will take your school or district to the next level!

Summer 2016-17 Workshops

Session #: **103926**

Session name: **Google Certified Educator Level 1 Preparation**

Description: Google Certified Educator is designed for educators and classroom teachers who wish to demonstrate proficiency in using Google for Education tools. The Level 1 status indicates that an educator is able to successfully implement Google Apps for Education into their teaching practice in order to enhance teaching and learning. If you're an educator who knows how to use Google tools in the classroom, this certification proves your proficiency. Spend one day completing the Fundamentals Training Course self-paced and with group support, do the unit reviews, and if you are comfortable, take the exam for an additional \$10 fee.

Special instructions: Bring earbuds or headphones. If you plan to take the test with the group, bring a credit card for the \$10 exam fee with Google. You will be using a laptop with webcam... You may bring your own laptop if you desire.

Session #: **103971**

Session name: **Teaching Free Enterprise in Texas Economics Conference**

Description: Region 14 welcomes the O'Neil Center from Southern Methodist University's Cox School of Business to present the first Teaching Free Enterprise Economics Conference in Abilene. Join us to acquire a better understanding of economics, obtain lesson plans and 21st century learner-centered activities. The seminar is taught in a dynamic format by researchers and university professors with decades of experience in the teaching of Free Enterprise Economics to entrepreneurs, undergraduate and graduate students. Educators will also get access to teaching materials they can implement immediately in the classroom.

The sessions will cover:

- Morality of Markets, Dr. Derek Yonai (SMU)
- Taxation and Public Finance, Dr. Dean Stansel (SMU)
- Development Economics, Dr. Adam Martin (TexasTech)
- Austrian School of Economics (History of Economic Thought Series), Dr. Robert Murphy (Texas Tech)

Lunch is included as well as a travel stipend.

Special instructions: A \$50 STIPEND and LUNCH will be provided.

Region 14 PITStop

May 26, 2017

6:19 am

Summer 2016-17 Workshops

Session #: **103799**

Session name: **Flipped Learning for ELAR Teachers**

Description: WHAT IF YOU HAD...more time in the classroom, if you could take a lesson outside of the classroom, more time with your students learning one-on-one and in small groups, active learners instead of passive learners, all students taking responsibility for their own learning, differentiated instruction for ALL students, and at the same time, the opportunity to minimize discipline issues? What is Flipped Learning? Students view prerecorded, instructional video lessons, interactive presentations, and/or read text at home, and traditional homework takes place at school. Students will come to school prepared to apply his or her learning using the traditional activities they would normally do at home and ask deeper questions receiving support from peers and the teacher. This allows classes to be more engaging environments where teachers promote understanding, higher-leveled thinking, concept analysis, and much more.

Special instructions: We will be in a computer lab. Please bring earbuds or earphones to the session if you can.

Summer 2016-17 Workshops

Session #: **103744**

Session name: **Summer STAAR! Reading & Social Studies Thinking: Identifying Cause & Effect Using Primary Sources**

Description: Helping students learn to effectively identify cause and effect relationships from text is critical to success on the STAAR tests. Often students' difficulties with this skill set are based on the inability to recognize the different types of causal relationships or multiple plausible alternatives. Training will center around explicit instruction in the cause/effect text structure, modeling, using effective graphic organizers to visually support critical thinking, signal vocabulary words, and identifying the impact of historical events. This session will focus on using expository texts and primary source documents to engage students and build background knowledge! It's a win-win! Come join us and see how easy it can be to create a positive learning environment while building background knowledge and teaching students how to identify causality with a primary source!

Summer 2016-17 Workshops

Session #: **103607**

Session name: **Thinking Mathematically with ratio tables**

Description: This training provides teachers with the theoretical basis, practical knowledge, and expertise to effectively use the ratio table as a powerful model for mathematical learning in K-8 education. A growing number of researchers in mathematics education are pointing to the ratio table as a fundamentally important mathematical model for elementary and middle school learners as we prepare them for success in the beginning algebra course. One of the reasons for this assertion is the degree to which the ratio table is a visual representation – a structural model – that embodies numerous mathematical concepts and relationships. The ratio table promotes proportional reasoning, makes use of equivalent fractions, can be a model for percents, functions as a double number line, and also can be an elegant computational tool in contexts that require either multiplication or division.

Summer 2016-17 Workshops

Session #: **103544**

Session name: **Behavior Interventions**

Description: If you have had a rough year with reducing behaviors of individual students, this is the training for you. Dr. Sara McDaniel will provide an incredible training for school districts that scramble to address the needs of the students who go through a revolving door from class to the office aka frequent flyers. Rather than scrambling for what intervention will work best, this session will provide a tool that will guide teachers and administrators on which interventions are the best fit for their student. Materials and resources will be provided to support your behavior interventions.

Special instructions: For this session participants could come as a team (i.e. tier 2 team) or individuals will benefit equally from this training.

Session #: **103814**

Session name: **Online Differentiating Instruction- Day 4 of the 30 Hour Gifted/Talented Foundational Training**

Description: In this e-course, participants learn about assessment used to measure student growth and the quality of a district's services for the gifted. Participants will contribute ideas to the discussion board, share their own experiences, and research related information. The objectives will be met through Internet investigations, investigation of district information and practices, and threaded discussions. A 10-question end-of-course knowledge test is also included. This is a self paced course.

Special instructions: Participants will receive instructions by email from the course facilitator on how to begin. This course runs July 2-9 and coursework must be started at least four days prior to the close date. Please email Nancy Galle when you register for this course after October 31 at ngalle@esc14.net.

(If you took part of the five days prior to this summer, check to be sure you have not taken this particular course. It may have been previously offered as Day 5.)

Summer 2016-17 Workshops

Session #: **103776**

Session name: **Teaching Math and Language Arts to Students with Significant Disabilities: A Step-by-step Process**

Description: Participants will discover how to make grade level Math and Language Arts/Reading TEKS accessible to all students. Developing skills through concrete, semi-concrete, and abstract processes, participants will learn how to help students make progress toward grade-level curriculum. Students' unique entry points will be addressed through manipulatives, visual supports, vocabulary, and supplemental aids, incorporating brain-based learning strategies. In this session participants will learn to use free online tools to create digital and multisensory books, narrowing the focus of grade-appropriate literature while targeting specific standards. Participants will learn to summarize/paraphrase content and support vocabulary and content utilizing graphics and sensory items to facilitate understanding of complex grade level standards.

This workshop will focus on math TEKS in the morning and LA/Reading TEKS in the afternoon.

Special instructions: Bring your own device.

Participants must attend both days for full credit.

Summer 2016-17 Workshops

Session #: **103815**

Session name: **Online Setting Standards for Gifted - Day 5 of 30 Gifted/Talented Foundational Training**

Description: Participants will learn about traditional methods of reaching gifted students as well as newly developed methods. Participants will learn what differentiation truly means and what it should look like for gifted students. Participants will also learn what is required by Texas law for the design of curricula for gifted students and what best instructional practices should be followed. A 10-question end-of-course knowledge test is also included.

Special instructions: Participants will receive instructions by email from the course facilitator on how to begin. This course runs July 10-17 and coursework must be started at least four days prior to the close date. Please email Nancy Galle when you register for this course after July 10 at ngalle@esc14.net. (If you took part of the days prior to this summer, check to be sure you have not previously taken this course title. It may have been offered as Day 4 previously.)

Summer 2016-17 Workshops

Session #: **103760**

Session name: **Conduits for Creativity with Mark Shelton - Hands-On Activities to Spark the Musical Imagination**

Description: Mark Shelton has presented over a thousand workshops and educational assemblies and is ready to share his high-energy combination of education and entertainment. As author/composer of three books for elementary music, Mark is equipped with lots of fun teaching material.

Mark will inspire you to channel your music students' creativity with highly interactive methods. Improvise in a drum circle, orchestrate a groove on the iPad, take a solo on a bucket, and compose with "found sounds" as you learn ways to develop creative skills in the elementary music class.

Special instructions: This workshop will be held at the Southside Campus.

Summer 2016-17 Workshops

Session #: **103903**

Session name: **Development of Handwriting, Keyboarding and Basic Composition (K-5)**

Description: Current research indicates that students must develop good handwriting and keyboarding skills if they are to write effectively. After an overview of writing research, participants will move into hands-on practice with handwriting, including proper positioning and grip, hand and eye dominance, and letter formation. They will also conduct a quick overview of effective keyboard instruction. Then, participants will look at basic and expanded paragraph writing, with an eye to an "I do it, we do it, you do it" model of instruction. They will work with list generation, categorization, supporting idea development, and topic and concluding sentences. At all levels in this workshop, participants will leave with a wide variety of strategies they can use with their students the very next day.

William Van Cleave is in private practice as an educational consultant whose specialties include morphology and written expression.

Special instructions: William Van Cleave, a nationally recognized speaker, has presented on effective teaching practices since 1995. While his own background is in language-based learning difficulties, the strategies William promotes are effective for students of all skill levels and abilities.

Summer 2016-17 Workshops

Session #: **103630**

Session name: **Dallas Holocaust Museum & Echoes & Reflections Holocaust Education Training**

Description: Region 14 is hosting educational consultants from Echoes & Reflections and the Dallas Holocaust Museum to present a professional development program for teachers who want to incorporate Holocaust education into their curriculum. These two powerful organizations give teachers the resources to teach the complex history of the Holocaust in a way that stimulates engagement, critical thinking, and personal understanding among students. Teachers attending the workshop receive a teacher's resource guide, access to an extensive array of visual history testimonies, and supportive tools from the Echoes & Reflections and Dallas Holocaust Museum websites. The intended audience is Social Studies/History and English-Language Arts teachers in grades 5-12.

Special instructions:

Summer 2016-17 Workshops

Session #: **103904**

Session name: **From Words to Works: Developing Writing Skills in the Content Areas (6-12)**

Description: In this hands-on, interactive workshop, William Van Cleave will work with content area teachers to develop strategies for helping students develop sentence, paragraph, and essay writing skills. First, participants will learn strategies for developing sentence sense in student writers. Then, they will also learn a structured, sequential approach to teaching the basic and expanded paragraph, including idea generation, categorization, and writing topic, supporting, and concluding sentences as well as transitions. Ultimately, participants will learn strategies for helping students develop effective writing for different purposes and genres. They will work with prompt analysis, effective templates, and idea-generating activities. Additionally, they will examine best practices for extracting information from text, including highlighting, note-taking, and summarizing activities. The entire workshop will model gradual release instruction and teacher modeling of the writing process!

Special instructions: William Van Cleave, a nationally recognized speaker, is in private practice as an educational consultant whose specialties include morphology and written expression. While his own background is in language-based learning difficulties, the strategies William promotes are effective for students of all skill levels and abilities.

May 26, 2017

6:19 am

Summer 2016-17 Workshops

Session #: **103800**

Session name: **Online - Guided Writing**

Description: Join me as I demonstrate on Google Classroom how to organize your Guided Writing groups using two forms and a folder organizer. One of the forms will assist with noticing and observing writing behaviors in order to support striving or reluctant writers to become more confident and successful while practicing a teaching point. The second form is used to apply the data from the observations and create engaging lesson plans for small group instruction. The folder organizer, which has multiple uses, will allow a teacher to use the lesson plan form and create small groups based on need and trends that were observed and documented. All forms are tied to ELA standards and the TEKS Resource System. These forms will maximize a teacher's time when pulling small intervention groups and have limited paperwork for documentation purposes during ARD meetings, parent conferences, etc.

Special instructions: This is a one-hour, online presentation using Google Classroom. You may work through the session at your own pace in your own space even though PitStop states it's open from 9 AM-4 PM. You may complete the session within 24 hours. When you register, I will send you an invitation to begin Google Classroom and detailed instructions the evening before the session.

Summer 2016-17 Workshops

Session #: **103739**

Session name: **Conscious Discipline Positive Intent & Empathy**

Description: Come learn from a Texas Administrator and Certified CD Instructor on ways the skills of Positive Intent and Empathy can change behavior on your campus.

The Skill of Positive Intent teaches us to "see [others] differently, especially our most challenging children, before they can act differently. Offering positive intent to children fosters integration, and the willingness to reflect on and change behavior."

"Empathy teaches emotional regulation, integrating the brain so [students] can take personal responsibility for their actions."

Session name: **Outstanding Math Guides**

Description: The Outstanding Math Guide (OMG) contains a complete set of differentiated reproducible graphic organizers that are aligned to TEKS. The graphic organizers can be used to introduce or review math concepts. The graphic organizers contain simple steps, examples and vocabulary of all key concepts covered in a year. The students OMG is an ongoing reference that puts a year's worth of curriculum right at their fingertips!

Training is for 6th, 7th, 8th Grade Math, Algebra 1, Geometry, Algebra 2 (Separated into groups)

The additional \$25 is used to offset the cost of the \$50 OMG book that each participant will receive. An OMG book contains pictures of a completed student OMG. A TEKS alignment chart showing the graphic organizer that covers each standard. Three differentiated black line masters for each graphic organizer. etc..

Summer 2016-17 Workshops

Session #: **103465**

Session name: **Write for TX Summer Secondary Literacy Conference**

Description: The Write for TX Summer Literacy Conference will be a great day to enhance your professional development in a conference setting. Participants will enjoy a Texas sized keynote from Texas poet and author, Sarah Cortez. Then, participants can choose the break-out sessions to fit their PD needs. Bask in the fun of writing, reading, listening, speaking and thinking in the different content areas. Whatever you teach, you should find sessions with a literacy thread linked to your content. Come enjoy a fun-filled day of learning and reflecting.

Special instructions: Break-out sessions sign-up will follow. Look for an email with a link to the individual sessions later in the summer.

Summer 2016-17 Workshops

Session #: **103134**

Session name: **KAGAN Cooperative Learning Institute**

Description: Create full student engagement with Kagan Structures—simple yet powerful cooperative learning instructional strategies. Supported by a large body of scientific research, and proven effective in countless classrooms, schools, and districts, this revolutionary way to teach is transforming teaching and learning. Come experience the power of Kagan Structures. See how easy it is use teamwork and pairs to create a greater level of engagement than you imagined possible, even for your reluctant learners. When we engage all students, they all learn more. They have fewer discipline problems. Come learn easy ways to use Kagan Structures as a part of every lesson, creating greater engagement, deeper understanding of the content, improved retention, improved social skills, and greater liking for class and content. Kagan will give you the Seven Keys to unlock the door to successful cooperative learning.

Summer 2016-17 Workshops

Session #: **103805**

Session name: **Online - Mentor Texts for ELA Teachers**

Description: A mentor text is a published piece a teacher uses during a lesson to either incorporate as their teaching point or to encourage students to learn from the experts. This session is based from the book called Mentor Texts: Teaching Writing Through Children's Literature by Lynne Dorfman and Rose Cappelli along with how Corbett Harrison, a secondary teacher, categorizes his mentor texts. You will be given the knowledge and tools you need to set the groundwork using children's literature and other authentic texts in order to help your students become confident and accomplished writers. Come join me during this two-hour, online session as I acquaint you with what mentor texts consist of, how to choose them, and how they might fit into your curriculum.

Special instructions: This is a two-hour, online presentation using Google Classroom. You do not need to be an expert of GC to participate. You may work through the session at your own pace and in your own space even though PitStop states it's open from 9 AM-4 PM. You may complete the session within 24 hours. When you register, I will send you an invitation to begin Google Classroom and detailed instructions the evening before the session. This is a repeat session from the spring, but with a few additions.

Summer 2016-17 Workshops

Session #: **103807**

Session name: **Experiment with Google Classroom for ELAR**

Description: Google Classroom is a free, interactive web service for anyone with a Google account. It enables teachers to create an online classroom area in which they can manage all the documents students need to learn, maximize time, keep classes organized, improve written and verbal communication with students, and much more. Teachers can add students for each class, post announcements, create engaging assignments, return reviewed assignments, and send messages to students. Students in turn can comment on announcements, share posts with peers or teacher, or return an assignment. Teachers will learn how to sign into GC, add a new class, rename or archive a class, access Google drive, post announcements, become acquainted with other Google applications, Google extensions, and other online tools and resources. Teachers will walk away creating their own Google Classroom. Come join the fun exploring innovative ways to deliver instruction for your ELAR students!

Special instructions: We will be in a computer lab. Please think about one teaching point that you want to use as you experience creating your own sample of Google Classroom.

Session #: **103629**

Session name: **Building Historical Literacy using the Resources of the Texas General Land Office & Frontier Texas!**

Description: It seems the term "literacy" has become just another buzzword in education these days. How do we turn that buzzword to reality in the classroom? Using primary source documents and maps from the Texas General Land Office Archives as inspiration, we will look at a number of effective, time-saving strategies that will help move students toward a deeper understanding of historical documents. Copies of original documents and maps will be provided along with a teacher packet of resources for the classroom. Come meet at Frontier Texas! where we will combine the resources of the Texas General Land Office and the museum to help you develop historical literacy skills with your students.

Special instructions: Session will be held at Frontier Texas!

Summer 2016-17 Workshops

Session #: **103738**

Session name: **YMAW: Working with the Ratio Table (Young Mathematicians at Work)**

Description: In Working with the Ratio Table, your workshop participants will observe sixth graders as they construct some of the big ideas related to fractions, making connections between ratios and equivalence and uncovering landmark division strategies like comparison through common denominators. By studying the use of carefully crafted problems designed both to generate a range of solution strategies and to highlight the power of ratio tables and other models for division, teachers will discover what a valuable tool real-life contexts are for building a solid foundation in mathematics.

Grades 5-8

Objective(s):

Summer 2016-17 Workshops

Session #: **103208**

Session name: **Building Strong Teachers Boot Camp (Day 4 & 5)**

Description: This is a training for teachers with 0-5 years experience.

Teachers want their students to be orderly, responsive, engaged, and motivated. According to the most current research on teacher effectiveness, putting a successful behavior management system in place is a sure way of achieving these goals.

This session will provide information on how to :

Improve classroom behavior (on-task, work completion, cooperation)

Establish clear classroom behavior expectations with logical and fair responses to misbehavior

Motivate students to put forth their best efforts (perseverance, pride in work)

Reduce misbehavior (disruptions, disrespect, non-compliance)

Increase academic engagement, resulting in improved test scores

Spend less time disciplining students and more time teaching them

Teach students to behave respectfully and to value diversity, thereby reducing cultural differences t

Special instructions: Building Strong Teachers Boot Camp participants must attend all five days of training July 27,28, August 1,3,& 4

Session #: **103941**

Session name: **Writer's Workshop K-5 (Online)**

Description: Writing Workshop is a block of time where students use and apply the writing process to create their own writing pieces. The purpose of the writing workshop is to give students opportunities to write within the school day and provide appropriate, targeted instruction and support for them in a whole group, small group, and/or individual settings. Learn all about the components of setting up your own writer's workshop in this self-paced, two-hour, online session. There's still time to get prepared before school begins!

Special instructions: This is a two-hour, online presentation using Google Classroom. You may work through the session at your own pace even though PitStop states it's open from 8:30 AM-3:30 PM. You may complete the session within 24 hours in your own space using your own device. When you register, I will send you an invitation to begin Google Classroom and detailed instructions the evening before the session.

Session #: **103882**

Session name: **LPAC Updates for Experienced LPAC Members**

Description: Language Proficiency Assessment Committee (LPAC) provides clarification of legal requirements integrating State and Federal Laws to (TAC) Chapter 89 of the Commissioner's Rules Concerning the Education of Limited English Proficiency Students. This half day (TOT) training is designed for experienced staff who have been trained previously on LPAC procedures. New information that affects the LPAC process and a review of basic procedures will be covered. The purpose of this session is to equip district/school personnel and build capacity for the purpose of establishing the mandated process to meet the needs of English Language Learners. Entry and exit procedures, placement, and assessment decisions will be reviewed in detail. This training mirrors the LPAC training released by the Texas Education Agency's Bilingual/ESL Department. This session will be repeated via virtual communication in the afternoon.

Special instructions:
